JOB OPPORTUNITY

Job Title:
Trust Fellow (Equiv. ST 6+) in ECMO & Cardiac Intensive Care

Date Posted:
13/02/2020

Job Location: Great Ormond Street Hospital for Children, London, United Kingdom

Job Requirements:
Applicants should have completed a minimum of 2 years of training at the equivalent of specialist registrar level in either pediatrics or anesthesia in addition to two years of pediatric intensive care experience at registrar level and either six months cardiac intensive care or pediatric cardiology. This should include experience in managing patients with complex congenital heart disease and patients sustained on extracorporeal life support or ventricular assist devices. Where applicable, it is an essential requirement that applicants have completed and passed the IELTS examination at the time of submitting an application, to the required pass mark standard for GMC Registration.

Job Description:
The cardiac intensive care facility at Great Ormond Street is one of the largest in the United Kingdom. It is an approved centre for paediatric intensive care medicine with unrivalled opportunities for training and gaining work experience in this exciting field. There are over 800 patients admitted annually of which around 560 are bypass cases.
The nationally funded ECLS programme is run on CICU with approximately 50 runs annually. This includes neonatal and paediatric respiratory ECMO, cardiac ECMO and ventricular assist device as a bridge to transplant. Great Ormond Street Hospital currently has one of the largest paediatric heart/lung transplant programmes in the world. The cardiothoracic unit also has a national pulmonary hypertension programme, a large thoracic practice and the only dedicated tracheal service in the UK for children. The appointees will be required to take a share in all activities of the unit, and supervise and support the more junior members of the clinical team.
